

February 22, 2019

To Neighbours of 80 Dale Ave

---

Thank you to all neighbours and Councillor Ainslie for attending our public information meetings February 6, 2019 at Scarborough Village Community Centre. We appreciate your personal time and the input you provided on our development proposal. We welcomed the opportunity to learn about the site and neighbourhood firsthand from you.

Moving forward, our objective is to take this information (along with any additional input received through email submissions and discussions by March 1) into our revised development application to be submitted back to the City. We have heard that potential alternatives should be explored in order to address comments raised throughout the process to-date.

We are targeting a full resubmission in April 2019, at which time the City will organize and schedule a community consultation and statutory public meeting regarding the revised development application. We will also notify all those who attended the information meetings and have emailed us once this submission is made. Our website for the project ([www.podiumdevelopments.com/80dale](http://www.podiumdevelopments.com/80dale)) will contain background material including summary of the minutes and some details on the application.

Thank you to all who attended or have provided feedback.

Sincerely,

A handwritten signature in black ink, appearing to read "Christian Huggett". The signature is fluid and cursive, with a large initial "C" and "H".

Christian Huggett, MCIP RPP
